PEGASUS HEALTH

Pegasus Health's Services to Improve Access is centred on the goal of ensuring the identified target populations in Canterbury are accessing the health care they need with the support and assistance of our team of PCW- Partnership Community Workers.

PCW- PARTNERSHIP COMMUNITY WORKER

The PCW team form a diverse network funded and supported by Pegasus Health and employed by community organisations across Canterbury. They work in collaboration with Pegasus PHO General Practice Teams and their local communities to reduce any barriers that a person/family/whānau; may experience in accessing health care. PCWs focus on people who are not enrolled in General Practice or who are enrolled but are not visiting their general practice teams as often as they need to.

WHEN TO REFER TO A PCW

If you know of people within your community who need support around their health and wellbeing but are unable to access this help for various reasons then a referral to a PCW may be appropriate. The PCW Service is not an emergency or crisis service. For further information and a PCW contact list and referral form visit www.pegasus.org.nz

CONTACTS

PCW Coordinator: Maureen van Venrooy, P: 022 657 3258, PCWService@pegasus.org.nz
