Child & Whānau Tautoko Hauora Service

This service aims to support the social, behavioural, developmental needs, and wellbeing of children/tamariki aged 0-14 years.

We work alongside your doctor (GP) and offer up to 3 home visits or phone sessions to:

- understand and assess the needs of your child/tamariki and family/whānau
- provide short term interventions
- collect information for your GP for ongoing referrals
- link family/whānau and caregivers to services and agencies for ongoing support.

This service is for those who have concerns about the health, behaviour and wellbeing of their child.

Eligibility

- Families/whānau who are Māori, Pasifika, Culturally and Linguistically Diverse (CALD), Youth, Rainbow, low income, and those with disabilities (all ages) where there are children/tamariki aged 0-14.
- People who are currently enrolled with a Pegasus Practice

Talk with your doctor or nurse about a referral to this service.
